THE EASTERN TROUBLE.

Upon the little Turkish province,

in which a great battle has been

fought, the eyes of the world are at

present turned with anxious solicitude.

Left to themselves, the power of the

insurrection, and restored quiet

would no doubt secure the peace of

Europe. The danger seems to be

that the insurrection, which is

now taking place in the Turkish

## Town and Vicinity.

TOWN COUNCIL.—A regular meeting of Council will be held on Monday night. There is a good deal of business for trans-  
action.

NEW GOODS.—The great bankrupt sale of dry goods and clothing at Walsh's Com-  
mercial House.

FALLS.—A female fainted in the lot for market this morning. She was carried to the outer air, and was soon restored to consciousness.

CORRECTION.—In the Albert College ad-  
vertisement, it was stated that Music was \$15 per term. It should be \$12, as will be seen by corrected advertisement.

BABY SHOW.—The baby show at Picton will take place on Wednesday next. The entrance fee is charged, and the show is open to Hastings.

THE JEWELLER'S.—The little shop of Jewellery is going in for gas. A company has been formed, and all the necessary capital has been subscribed, except about \$2,000.

THE COMMERCIAL HOUSE, WALSH'S.—The bankrupt stock of staple dry goods and clothing are being sold off at unheard-of low prices.

PROPOSED GAME.—The Oswego Police-  
man says:—Another cricket match is being proposed between Central New York Canada, to be played at Kingston. Henry Stevenson of Oswego to meet the Central New York team.

PRINCE EDWARD.—It is said that Mr. Striker intends to "throw up the sponge" at the approaching election trial. The effect says he will be a candidate again. He has already announced to citizens for votes.

THE BANKRUPT STOCK OF dry goods and clothing at Walsh's Commercial House is being sold off rapidly, call early and secure some of the bargains.

LEWISBURG.—The operations of the lumbermen are already beginning, a number of men having been, within a few days, despatched to the back country to cut hay and make other preparations for the commencement of the winter work.

CRICKET.—The match between Belleville and Montreal will be played here on Tuesday. A good game will probably result, although some of the regular eleven will be unable to participate. The ground will be much improved by the rain of last night.

A GOOD BREEZE.—This was a nice breeze blowing on the bay today; the "white-cap" rolling before it in fine style. Shows that the Hammondsburgh, which are sailed to-day, be favored with such a breeze, the *David* and *Surprise*, the representatives of the bay, will be heard of to some purpose.

BARGAINS.—Are being obtained at the sale of Walsh's bankrupt stock of first class dry goods and clothing, now going on at the Commercial House, next door to Mr. Nathan Jones.

THE MARKET.—The attendance this morning was large, the entire square being occupied by farmers' teams and wagons. There were very plentiful and the quality a good supply in the better market. Prices were almost unchanged, and a quick sale was had for every valuable article offered.

POLITICAL MEETING.—The Napanee Express says:—We are authorized to say that Hon. R. J. Cartwright will be happy to meet his constituents and address them on the public questions Tuesday 14th inst., at the Town Hall, Napanee. Chair to be taken at 3 o'clock P. M.

ATTEMPTS AT BURNING.—We have heard of two attempts at burning being made recently, but on each case the burglars were no more than they awoke the inmates of the dwellings attempted to be operated on, and had to depart. There were two of them, evidently "green" hands at the business, judging from their meek of speech.

RAIN.—There was a heavy shower last night, with the wind at south. Later in the night the wind shifted to west and blew strongly, driving the rain clouds close to the coast. Though the rain did not clear the supply in the district, and replenish crops in the fields, besides all of which the shower broke the dry spell, and now more rain may be looked for.

A DEEP THIEF.—A youthful thief, one of the worst, having "done the hatchet" against the owners of fruit trees in the market, whose property was cut and carried off whenever an opportunity came. This class of robbers will, in spite of the terror of the law, continue their depredations until, by the gathering in of the crop, nothing is left for them to steal. He told us that several owners of fruit trees have been obliged to gather in their fruit prematurely in order to escape

## THE REGATTA.

The Dinnities takes the Second Prize.

SECOND CLASS RACE POSTPONED.  
The weather today for the second annual regatta was all that the yachmen required. The entire regatta for both classes of yachts, owing to the inclement weather, the second class yachts did not start on time, and the race was in effect postponed.

SPRINGER WORDS.—The following is from the financial article of the New Orleans "Tribune":—"The people who sit nervously in counting houses or behind their desks, waiting for customers to take them by storm, and making no efforts to let the world know the bargain they have to offer, will find the season unpropitious. Many who have spent large sums in hiring drummers and paying for other well-known agencies of trade have effected little or nothing, and are left with a large share of the receipts in such enormous amounts of expense. The best convention has been found by the business man to have returned to more legitimate old-fashioned methods of doing business. We say it not simply because we are interested in this line of expenditure, but, as our best advice to all who wish to be successful, and to secure a larger return on their investments, is to be effective to this end as judiciously as possible. A little advertisement may be a little waste of the whip to poor Dobbin's horse, but a surety of success is a surety of success. It is almost certain to bring in a better turn, and this will last beyond the current season. We do not believe that any one who has valuable service or suitable property to offer can fail of reaping a rich harvest by continuous advertising on a large scale."

Mrs. POLY.—The following items are from the correspondence of the *Beau*:—"Work on the new steamship has commenced. She is intended to ply between Napanee and Kingston, daily. She will be a larger than the Rochester, and is expected to be a clipper for speed. The passenger traffic of the Rochester is much more than greatly increased, under the able and gentlemanly command of Capt. Mosher, assisted by the kind and obliging Purser Johnston.—We have seen a very handsome silver lamp, worth \$10, which was presented to the ladies by the Belleville 'frigate' as a token of esteem for his gentlemanly and obliging conduct on the steamer. 'May his shadow never grow less.'—The hull of the schooner H. J. Jones is now nearly ready. She will be a very handsome and comfortable, and should be named Jones. The lumber and shipping trade is very dull at present, but better times are anticipated.—Pleasure travel is being very largely indulged in, and in fact the only way people spend their money is on their holidays. The *Milwaukee* are becoming quite a habit, since the Government has enforced the Prohibitory Law in their behalf, although they nearly dry up this hot weather.—Barley is now in store, but slowly. Mr. Baker has purchased some 1,200 bushels, at 80 cents a bushel. The grain is plump and heavy, but somewhat colored.—A new pleasure yacht, with 8 feet beam and 30 feet keel, is to be built by Messrs. Jamieson and Co. The intention is to be the sailing vessel of the day. Time will tell whether the hopes of the builders are well grounded or not. The new hotel will have been some time in operation, but the owner's antipathies.

LOVINSKY, Sept. 4.—A correspondent writes from Belgrade that the Turkish insurrection is spreading rapidly from helping the insurgents. PORT SMITH, Ark., Sept. 4.—Martin Haines, tried for murder the last term of the United States Court, and acquitted for want of sufficient proof, could offer no release that he killed his man. Haines is a desperado of the worst type, and on Thursday night, while engaged in a drunken row in a house of ill-fame, he fatally stabbed by Jim Bailey, who has been arrested.

BELLEVILLE, Sept. 4.—Two young men named Vining and Kirby, while driving near Langley's farm, were accosted by two special policemen, thinking they had fallen in the hands of outlaws one of them drew a revolver and wounded the policeman. The other officer then fired, killing Vining instantly. Kirby fled to the woods and was later found dead.

Great excitement exists throughout the Schuykill region on account of the prevalence of crime, and in several localities vigilance committees are being organized.

## A Destructive Typhoon.

ENGLAND AND BURMAH.

The steamship *Galathea*, from Hong Kong via Yokohama, which arrived yesterday, brings the following:  
Yokohama, Aug. 14th.—There has been a heavy typhoon in the sea. Several vessels were wrecked. The steamship *Galathea*, which was wrecked, and the chief officer, Ritchie, and seaman Patterson, were washed overboard and drowned.

Owing to a rainfall of 17 1/2 inches within a few days, damage is estimated in the central provinces of Japan. Farms have been flooded, houses and bridges demolished, and a large number of people killed.

SHANGHAI, Aug. 3.—The declaration of the Chinese authorities respecting the Fomosa sugar protest to be empty threats. The troops refuse to follow the aborigines into the heart of the island, and they have revolted by regiments. The sugar remains market of the situation, and the Chinese military operations have been suspended. A body of returned soldiers from Fomosa, soon after landing at Foo Cheu, assembled an American lady and gentleman with great violence, severely beating both. The incident is said to be the result of the U. S. Consul.

A gear-headed man was riding in a Woodward avenue on the other day, when a lady opposite bowed to him. He returned the bow, raised his hat, smiled sweetly, and was just wondering who she was, when he was struck on the head by a brickbat. "Oh! I'll pay you for this, old man!" Then he knew it was his wife.

After the Battle of Antioch.

BY M. D. HARRISON, LARA.

The harvest moon of the battle field,  
Shone down on the dead and the dying,  
And the yellow wealth of the forest  
Crowned by the stillness of death and pain,  
And with the life of the forest,  
Is known to the living and the dead.

The dying lay on the ground, and night  
Kissed their brows with cooling dew,  
And the forest, with its living and the dead,  
To the left of the forest, the forest,  
To the right of the forest, the forest,  
To the left of the forest, the forest,

Two who have stood up in hand,  
Handed by the forest, the forest,  
When, on the slope of the forest, the forest,  
Was broken down by the forest, the forest,  
Of their lives in a perfect garden hand,  
Close to each other lie.

"You," says the forest, the forest,  
From his comrades, the forest, the forest,  
"You," says the forest, the forest,  
"You," says the forest, the forest,  
"You," says the forest, the forest,  
"You," says the forest, the forest,

THE ATTRACTIVE TOURNAMENT IN PHILADELPHIA—THE TEAMS AND TOURNAMENT.

From the New York Herald.

Philadelphia, Sept. 4, 1875.  
For the past month or so, the cricketing in the United States and Canada has been looking forward to the cricket tournament which will commence on Monday next at the grounds of the Philadelphia Cricket Club. In view of the fact that the Philadelphia Club, on each side, will consist of two teams, the tournament will last from the 13th to the 24th inst.

For the past two weeks the ground has been carefully looked after, and a grand and splendid cricketing campaign. A high fence has been erected, and a grand stand and seating accommodation have been built.

THE TOURNAMENT.  
The programme is as follows:—First match, Monday and Tuesday, September 13th and 14th, Canada vs. Philadelphia; second match, Wednesday and Thursday, September 15th and 16th, British officers vs. Canada; third match, Friday and Saturday, September 17th and 18th, Philadelphia vs. British officers; fourth match, Monday and Tuesday, September 19th and 20th, All-Canada vs. Philadelphia.

THE PLAYERS.  
The Philadelphia team has not yet been completed, but the following gentlemen will play in it:—George M. Newhall, captain, Charles A. Newhall, Daniel S. Newhall, second match, Wednesday and Thursday, September 15th and 16th, British officers vs. Canada; third match, Friday and Saturday, September 17th and 18th, Philadelphia vs. British officers; fourth match, Monday and Tuesday, September 19th and 20th, All-Canada vs. Philadelphia.

The British officers (gentlemen of Her Majesty's forces) will consist of the following:—Capt. N. W. Wallace, captain; Lieut. Hon. Keith T. Murray, Lieut. H. L. Fraser, Lieut. J. D. Howland, Lieut. R. C. Howland, (all of the Sixth Royal Rifles), Capt. W. W. Taylor, Lieut. F. Carpenter, Lieut. in the Singapore of the 5th Buffs, Lieut. J. H. Fairlie, (Faulk-Balch), Lieut. W. Saville, (Royal Navy), Lieut. G. E. Brown, and Lieut. F. F. Telford, (British Legation). Extra men—Capt. C. Tansell, (Eighty-seventh Royal Rifles), Lieut. J. H. Fairlie, W. H. Sykes, (Royal Engineers), Lieut. W. H. Holbeck, (Sixtieth Royal Rifles).

The Canadian team will be composed of the following gentlemen:—Rev. Thomas D. Phillips, captain, and C. Brodie, of Ottawa; Charles McLean and D. Brister, of Montreal; A. Greenfield, of Toronto; R. Hope, of Hamilton; J. W. Hall, of London; W. W. Hall, of Chatham; G. Hall, of Port Hope; Major D. Morris, of Fredericton; N. B. E. Kearney, of New Brunswick; and F. Armstrong, of Oshawa. Extra men, Dr. Sprague, of Toronto; Scorer, A. W. Powell, of Ottawa; Umpire, G. Powell, of Ottawa.

The players are expected to reach Philadelphia on Saturday next, and while in town will stop at the Continental Hotel. The various Clubs are making arrangements for their guests to thoroughly enjoy their visit, and at evening of the match some place of amusement will be visited. A large number of visitors will expect to see New York, Boston, Chicago, St. Louis and other places. There are over 300 cricket clubs in the country, and a large delegation from the St. George's Club of New York and the Staten Island Club will be present throughout the tournament. Play will begin at noon each day.

The tournament is expected to give a fresh impetus to the game of cricket, and much ground during the Exhibition.

Mr. Schwabe, who in 1906 was entrusted with the introduction of a system of telegraph lines in India, took the opportunity to do his work in the only way possible, by the direct communication for the expenditure of the Government. He has now, however, laid out 10,000 telegraph lines. Over 100,000 determinations have been made during the past six years, and he has from these the conclusion that all the telegraph lines in India have a magnetic diposit were, a negative or copper current, and that the magnetic field strength varies from the west to the east. The strength of the natural current is very variable, even in the same place, and it is also rare that it is far more constant than the variations in strength and direction, on telegraph lines, are very uniform. The direction of the current is generally in the direction of the magnetic field, although the direction of the current is generally not fully parallel to the field, indicating an improvement of the system for the telegraph lines, which is necessary for the telegraph lines in India. It is also to be mentioned that the Indian Government has been very successful in its attempt to have the telegraph lines extended by it.

ON AND AFTER THE First day of October, 1875.

## NEW POSTAGE LAW

Makes it compulsory for Publishers to pay postage on all Newspapers sent through the mails, and that Subscribers to the INTELLIGENCER will receive their papers through the mails.

## FREE OF POSTAGE.

This new Postal Regulation is destined to work a complete revolution in the system of paying for Newspapers, and already in different parts of the Dominion publishers announce that in future payments in advance will be very much lessened upon. So far as the Newspaper business is concerned, this is, no doubt, the only correct and safe system, and it will eventually be adopted universally in Canada as it has been in other countries. Compelling Publishers to prepay the postage on their publications, as the law now is, will necessitate the application of the same rule to Newspaper Subscribers.

With a view of bringing this system into effect as rapidly as possible, we have decided to make the following

BROWN, at the accounts belonging to the "INTELLIGENCER" Printing and Publishing Company, and parties when settling their old accounts have a chance of availing themselves of the foregoing liberal offer.

BELLEVILLE, ONTARIO, THURSDAY, SEPTEMBER 16, 1875

Mr. Flint said that in most cases the contract spoken of had been pursued, but in others he had trusted to the honor of the Recog.

Mr. Wood said a somewhat similar difficulty had occurred in Rawdon, which has been inquired into at the suggestion of the Reeve of Madoc Township.

The Warden thought it due to the Council that returns should be made.

Mr. Wood suggested that the motion might be made later, or in Committee on Ways and Means.

Committee on Roads and Bridges resumed. The County Surveyor's report was read as follows:

ESTIMES. Since last meeting of the Council I have had condition bridge planks and north side of good yard fence repaired. The bridge near Moore's tollgate has been repaired. The repairs have been done on the road from Tweed to Lanesville on the Malone road. There has been a culvert built near Mr. Caste's place of one turned. Hartsville and Myrtle Mill bridges have been plankled. I have a bridge and road built on Lot No. 31 in the town of Hungerford, on Mr. Coe's land. Mr. Coe has accepted thirty-five dollars as

pay for right of way, the deed for the old toll  
allowance being the balance. The joint  
boundary line between Midway and Hawdon has  
been accepted. I have had to repair the aw-

is necessary that the table should be raised in  
centre and levelled this winter. I have had to

 Your obedient servant,

Mr. Wilmut called the attention of County Surveyor to the unsafe condition of two bridges on the Frankford gravel road.

The report was read clause by clause. The recommendation as to filling two p at Empey's bridge was adopted, also th

Mr. Wood wished the work to be let out by tender.

Mr. Wood thought this was a mistake. They should take only money subscriptions unless the tender felt comparatively lower than

MORNING DESPATCHES.

EUROPEAN.

Death of an English Judge.

**TRIAL POSTPONED.**  
LONDON, Sept. 18.—Sir John Lubbock, Master of the Court of Common Pleas, is dead.

A bulletin special to the Daily Telegraph states that the trial of persons accused of participating in the revolutionary propaganda in Russia has been postponed to 1876.

AFTERNOON DISPATCHES.

NEW YORK, Sept. 18.—Wm. Mahan, proprietor of the Desford Park, was shot and fatally fatally last night, by a man named Johnson. The affair grew out of a race at Desford on Wednesday.

Governor Knickerbocker died at Cold Springs on Thursday, aged 90 years.

Rev. Charles J. Gallagher and Rev. James Wagon, of the Seminary of Our Lady Angel, Niagara, have been elected Priests to-day by the Cathedral at Brooklyn.

LONDON, Sept. 18.—The amount of bullion withdrawn from the Bank of England on last night was £100,000.

Berlin, Sept. 18.—Emperor William leaves Germany the first of October, to visit the King of Italy. Rumors will probably attend him, although it is not fully decided. The Emperor will sail from Kiel, noon after the 18th day of the Empire, Sept. 30, which is always celebrated in that city. The movements of the Emperor have for a long time past been regulated to a great extent by his medical advisers, and his determination to visit Italy has just been made.

SANTO DOMINGO, Sept. 18.—600 cavalry embarked for Cuba yesterday.

WASHINGTON, Sept. 18.—Probabilities—for the Middle States, partly cloudy and colder weather than on Friday, with variable winds mostly from the northwest, raising fog, by falling barometer and threatening weather and rain south of Pennsylvania during Saturday night.

—Some parties who have been prospecting for petroleum at La Alamo, Cape Breton, have found a depth of 900 feet, a fine oil almost free from offensive odor. A company is being formed in Halifax to work it.

—More escapes of Communist prisoners are reported from New Caledonia. The troops have resolved to give the officials no rest, and they certainly manage to make them pass more unpleasant hours.

Dancer of disgrace dances them constantly in the face, so that it is hard to say whether the deported Communists or their guard-ians occupy the more unpleasant position.

SAVE YOUR HAIR.—If you wish to save your hair and keep it in a strong and healthy condition, use *Barrett's Compound*. It will stimulate the roots of the hair, and restore the natural color upon which it grows. It is a tonic, and a single bottle will save a lady's hair in a severe case, and will cure all other treatments fail, and since that early success thousands of cases of Baldness, Dandruff, Loss of Hair and Irritation of the Scalp have yielded to the same remedy.

**D. WILKES' COMPOUND ELIXIR** of Phosphate and Calcareous is called the CHEMICAL FOOD and NUTRITIVE TONIC because Phosphates enter into the formation of every solid and fluid of the body and are essential to the development of the tissues and the generation of nerve power. They are the basis of the blood, and create pure blood, and supply the waste going on in the system as the result of mental and physical exertion. Being combined with Calcareous Barytes, the chief element in all fertile, procreant conditions, it forms a combination of the highest intrinsic merit, and will restore to health any case of general debility than all other medicines in existence. It is incapable of injury to the system under any circumstances.

Take Notice.

**ALL ACCOUNTS AND NOTES due the ONTARIO PUBLISHING COMPANY, if not paid at once, will be sent.** A limit must be put into Court as soon as possible.

TUESDAY, SEPT. 21, 1875.

## Town and Vicinity.

Sept. 21st. All the first-class yachts, except the Fair, and most of the second and third-class boats from a distance which took place in yesterday's races, are still in position.

Now going on the great bankrupt sale of dry goods and clothing at Walsh's Commercial House.

DEADLY DUMPS. There are now in the institution for the education of the deaf and dumb, 190 pupils, being an increase of over 20 in the attendance at the same period last year.

THE WEATHER. A contemporary sagely remarks, and what he says is true of this latitude: "The cool days and chilly nights bring expectations of early autumn, and the fall of store merchandise and coal dealers."

SALE OF RAILROAD STOCK. The railroad iron, spikes, bolts, nuts, &c., belonging to the Grand Junction Railway Company, which was advertised to be sold yesterday, was sold at all levels, and the stock was sold at all levels, and the stock was sold at all levels.

WALSH'S BANKRUPT STOCK. Walsh's bankrupt stock of staple dry goods and clothing are being sold off at unheard-of low prices.

FIREMEN. There are a few fat men in this district, as is evidenced by the fact that three of them who weighed the other day weighed 400 pounds, and one of them weighed 450 pounds.

THE BAKERS' STOCK OF dry goods and clothing at Walsh's Commercial House is being sold off rapidly, early and secure some of the bargains.

TECHNICAL DISASTERS. A small yacht named the Fish Boy, in which were four young men, whose names are not yet known, capsized in Hamilton Bay, near Toronto, on the afternoon of the 19th. All on board were drowned, and no traces of the bodies have as yet been discovered.

IT is a striking coincidence that a yacht bearing the same name capsized here on the same day, but in the latter case all were saved, the young men who composed the crew being picked up by the tug Eliza Bear.

PAID FORTNIGHT. One of the principal attractions at the sale of useful and fancy work at the Metropolitan Hall to-morrow night, will be the performances of the Band, which is composed of some of the best amateur musicians in the city.

IT is estimated that two million dollars worth of city very little property was damaged by the late storm, and the damage was reported very great.

COMMODORE MORGAN'S fleet of dredge boats is reported to have done a number of the work.

AT Harrisburg and Houston there was a terrific gale, and the water was driven up from the bay higher than ever known before.

Our hundred miles to the north, along the entire coast, it is feared great damage has been done, and at Indianapolis and the western ports.

FALL SHOWS. Farmers and other interested persons will find the following list of fall exhibitions of interest.

From Mallova & McPherson, to be allowed to number the houses in town.

From R. McPherson that the room occupied by the Hook and Ladder Company be repaired.

Several accounts were received.

The By-laws for levying the taxes for 1875 were passed through Committee, and finally passed and numbered.

SEVERAL ACCOUNTS. In \$200 on Ways and Means, the sum of \$200 was voted for Council fees in the Clerk's case.

The prayer of Rev. Mr. Campbell's petition was granted.

The assessment on John Lewis & Co's property on Front street was valued at \$7,000.

The Solicitor was instructed to notify Mr. Lankler to clean and repair the furnace in the Market building, according to contract.

The transfer of house to John Henderson Council adjourned.

## Police Court.

THURSDAY, SEPT. 17.

A charge of unlawful assault, preferred by John Scott, of the Police North, was continued until the parties.

## FRANCE.

## PROBABLE OVERTHROW OF THE MINISTRY.

Paris, Sept. 21.—The *Courrier de France* states that the Cabinet have unanimously resolved to propose the abolition of the system of voting by departments. The *Courrier* anticipates, in consequence, the overthrow of the Ministry in November.

## LIBERAL REPUBLICAN CONVENTION.

## HORRIBLE MURDER.

## THE BLACK HILLS.

## San Francisco, Sept. 21.—In the Supreme Court today the case of ex-Governor Commissioner John Marks, convicted of embezzlement in the municipal court and sentenced to seven years in the Penitentiary, came on for appeal, and the decision of the lower court was affirmed. Marks' petition during eleven months in 1872 reached about \$60,000, or forty-three per cent of the entire collection of the water front revenue. The case has been tenaciously contested throughout.

New York, Sept. 21.—A caucus of New York delegates to the Liberal Republican Convention was held last evening, and it was unanimously agreed that it would be inadvisable to nominate a State ticket. Governor Tilden's proposition of a coal district was commented upon. It was determined that the principles enunciated by the Liberals in 1872 should be reaffirmed, and that the organization of Liberals be maintained.

At New Brunswick, N. J., yesterday, Jan. (Charles), an English music-dealer and teacher, shot his wife three times in the head. Believing her dead, he locked himself in the room, and about three hours later, he opened the main artery in his arm, but not dying quickly enough, he crushed his skull with a heavy hammer. He was breathing when found, but soon died. His wife was seriously but not fatally wounded. The couple have been married twenty years, but his temper became so ungovernable recently that his wife determined to separate from him. The family lived together until yesterday for the last time, previous to an intended violent separation. The wife was shot in the presence of her daughter.

A despatch from the Red Cloud agency says it is probable now that the Indian Commission will award the price and terms asked by the Indians for the Black Hills instead of proposing a price.

Y., and Pennsylvania.

ST. LOUIS, Sept. 21.—The cattle disease has broken out in Wilkesham, and the herds of D. Merrick are rapidly dying off.

The household property consisted of a bed, a wooden coop, and a few other wretched articles not worth naming. The mother was naked. The cabin was heated only by a fire at night; the common highway was their only light during the day. The only visible means of support for the starving mass was the outdoor relief allowed them by the

We take from it the following advice, which, with a proper degree of allowance for the difference in latitude, may be found to be serviceable to bee-keepers in this locality. He said :

First see that each hive has a queen and plenty of honey, and your work is done until pollen becomes plenty, which is from the 1st to the 10th of May in this latitude. Now go to each hive, and if they are not covering all the brood they can without danger of chilling, take a frame of honey from the outside, and after passing a knife flat ways over it, so as to break the

There is no use putting on boxes when bees are not getting honey, as it really retards brood-raising. We like to put on boxes when bees are anxious for some place to put honey that

on as though she meant to pass the young ploughman by, until he spoke, and then she started, and blushed, and stopped, and nervously broke off the top of a last year's iron-weed, and began to break it into bits while he talked, looking down most of the time, but lifting her eyes to his now and then. And to the sun-browned but delicate-faced young German it seemed a vision of Paradise—every glimpse of that fair girl's face in the deep shade of the sun-bonnet. *For girls' faces can never look*

This was not their first love-talk. They engaged? Yes, and no. By all the spoons their eyes were capable of *his* *salvage* and of late by words, they were engaged to another. But they were engaged to another of it. Another, and they were separated by circumstances, and they hardly began to think of marriage yet. It was enough for the present to love and be loved. The most delightful stage of love affair is that in which the present is sufficient and there is no past or future. As he sought hung his elbow around her and she hung her arm about his neck.

It is the highest praise of the German heart that it loves flowers and little children and like a German and like a lover that it was, August began to speak of the anemones and the violets that were already blooming in the corners of the fence. Girls in love are not apt to say anything very fresh. And Julia, only glad she then

the flowers seemed happy in the sunlight.  
In answer to this speech, which seemed  
the lover a bit of inspiration, he quoted  
from Schiller the lines:

"Yet weep, soft children of the Spring;  
The feelings Love alone can bring  
Have been denied to you!"

With the quick and crafty modesty her sex, Julia evaded this very pleasant shaft by saying, "How much you know August! How do you learn it!"

"Do you know my Uncle Andrew? What a strange man he is! He never comes here, and we never go there."

my mother never speaks to him, and my father doesn't often have anything to say to him. And so you have been at home. They say he has all up-stairs full of books, and ever so many cats and dogs and birds and squirrels about. But I thought he never let anybody go up-stairs.

"He lets me," said August, when she had ended her speech and dropped her sun-bonnet again out of the range of eyes, which, in truth, were too steadfast in their gaze. "I spend many evenings up-stairs." August had just a trace of German in his idiom.

"I wonder!"

"I don't exactly know. Some say was treated not just right by a woman when he was a young man. I don't know. He seems happy. I don't wonder a man should be curious though when a woman that he loves treats him not just right. Any way if he loves her with all his heart."

These last words came with an echo. And Julia just then remembered her grand, and said, "I must hurry," as with a country girl's agility, she climbed over the fence before August could help her, and gave him another look through the trees.

And even as he set his plough-shares so he set his purpose to overcome all obstacles, and to marry Julia Anderson. With the same steady, irresistible,

From her covert in the older-bush Mrs. Anderson had seen the parley, and her cheeks had also grown hot, but from very different emotion. She had

heard the words. She had seen the leitering ploughboys, and she went back to the house vowing that she'd "teach Ju Anderson how to spend her time talking to a Dutchman." And yet the more she thought of it the more she was satisfied that it wasn't best to "make a fuss" just yet. She might hasten what a

Julia was obedient and mild in word, as was none the less a little stubborn, and a matter of this sort might take the bit her teeth.

And so Mrs. Anderson had recourse, usual, to her husband. She knew she could browbeat him. She demanded that

"I don't believe that you'd care a cent if she did marry a Dutchman! She might as well as to marry some white folks."

**GO TO THE COMMERCIAL HOUSE.**—Wah's bankrupt stock of staple dry goods and clothing are being sold off at wholesale low prices.

**NEW DOMINION MONTHLY.**—The October number of this popular Canadian Monthly has just been received. It contains a number of well-written original pieces, and the usual variety of choice miscellaneous reading. There is a portrait of Mr. S. P. Mitchell, the author of the "Fruit of the Loom."

**CLEANING UP.**—The cells at the Police Station are being nicely whitewashed and cleaned up, and now, for the first time in many weeks, they emit no offensive smell, even after their occupancy by four of the "great unwashed," who sought refuge there last night.

**PICKED UP.**—The little yacht Rob Roy, which was in the harbor on Monday morning, was picked up by a tug, and taken to the residence of the locality where she grounded. The boat is said to have suffered considerable damage from the pounding she received on the shore.

**NEW GOODS ON THE GREAT.**—A sale of new goods and clothing at Wah's Commercial House.

**THAT ROOSTER.**—The further adventures of the white rooster who was imprisoned in one of the cells yesterday, was that it was placed in a bag and taken by a carrier to the home of the officer whose property it was. Thus ended, for the time being, the public career of this notable bird.

**FOR KINGDOM.**—The yacht Katie Gray, of this place, left for Kingston yesterday. She will sail in the second-class room to-morrow. Unless the new boats at Kingston are much faster than the *Bona* and *Sophia*, the first prize will likely find its way to Belleville.

**FRUIT.**—The "Gold spell" continues, and fruits are of nightly occurrence, yet not much damage has been done in this vicinity as yet. Our neighbors to the south, in New York State, have had more severe frosts than have yet occurred here, and a very large amount of damage has resulted to crops—corn, buckwheat, potatoes and flowers having been almost entirely destroyed.

**THE BAKERY STOCK OF DRY GOODS.** and clothing at Wah's Commercial House is being sold off rapidly, call early and secure some of the bargain.

**THE FESTIVAL.**—The Penrhyn Festival and sale of useful and fancy articles, gotten up by the Ladies' Aid Society of St. Andrew's Church, and held in the Metropolitan Hall last night, proved, as it deserved to be, highly successful. There were about 500 persons present, and the amount realized was \$140. All the arrangements were excellent, and the Amateur Instrumental Club added much to the pleasure of those present by the very fine music which they furnished.

**ANOTHER OUTRAGE IN ERIE.**—The Driveway correspondent writes, under date of the 22nd inst.: "A short time since you had to read a villainous outrage on a defenceless woman living on the Flinton road. A week ago today a similar attempt was made at another house on the same road. Mrs. Bullock was about to retire to rest when the outer door was burst open and a tall dark man entered and seized her by the throat. She tried to scream, but a little boy—the only person in the house—was so terrified that he did not utter a sound. The man, dressed off, but not before he was bitten in the hand by a dog. Possibly this ruffian may be the same one who attacked the other woman, and it is to be hoped he will be caught, and if he is he will get all he deserves, perhaps more too, if that be possible."

**REWARDS ARE BEING OBTAINED AT THE sale of Wah's bankrupt stock of first class dry goods and clothing now going on at the Commercial House, next door to St. Nathan Jones.**

**THE ROYALTY.**—The Ontario Palladium has the following in its issue of Tuesday: "Capt. Mosher, of the steamer *Kingston*, informs us that the vessel, which is to be employed on the Bay of Quinte, will be under the command of Mr. J. H. Mosher, who is a very experienced seaman. The ship is a fine vessel, and is well equipped with all the latest improvements. It is expected to start on its voyage on Monday morning. As the wind was blowing a gale from the southwest, it was thought that the vessel would be delayed, but it sailed without the least delay. The opinion of so experienced a seaman as Capt. Mosher is worth a good deal, yet the wind

Ordinary Recipes.

**TO PREPARE FRUIT.**—Take the fruit from a bag, fill it with the handkerchief and wash it in all the water it will hold. Then wash it again. In winter the fruit will be better preserved, with the skin on, and with a slight coating of sealing in syrup they are a delicious accompaniment to ice cream, far superior to any branched product. The peach, which remains well for a long time, is excellent for sauce pie and pudding sauce.

**TOMATO PIE.**—Take four tomatoes, pour boiling water over them, and remove the skins; slice them and sprinkle with salt; let them stand while you mix and roll out the crust; then mix the juice and add a teaspoonful of sugar, half a cupful of sweet cream (if you have it), and a teaspoonful of butter. Bake in a hot oven for one hour. This is enough for a pie the size of the tin, and is a very rich and excellent pie.

**SALAD TOMATO PICKLES.**—Take a pound of sliced tomatoes that are just turning white and have been soaked in salt and water sufficient to make them a little tender; mix a tablespoonful of ground pepper, one ounce of vinegar, one of oil, one of ground mustard, one of cinnamon, four of celery salt, one of red peppers, four ounces chopped fine, half pint ground home-made. Mix all together and let it stand for one day, then add one pound of sugar and cover with vinegar. — *W. H. B.*

**TO PREPARE KETCHUP.**—The following method of preparing tomato ketchup is a superior way for the preparation of that excellent and healthy sauce. It is one of the most useful and delicious of all the sauces to which we are particular to have the articles all good: Tomatoes, one-half bushel; salt, one ounce; vinegar, one quart; onion, one ounce; pepper, one ounce; cayenne, one ounce; sugar, two drachms; vinegar, one gallon. Peel the tomatoes, slice them, and add salt and sugar in their own liquor until quite cold, and rub through a fine strainer, as to get the seeds and skins out. Boil down the pulp and juice to a consistency of apple butter (very thick), stirring all the time, when the consistency is reached, add the vinegar, and the spices, stirred up with the vinegar, boil for five minutes, then let it cool and bottle. — *John H. King, Toronto.*

**PRESERVING PEARS AND TOMATOES.**—To preserve pears, put in fruit in a glass jar, cover with water and let them stand for one day, then add one pound of sugar and cover with vinegar. — *W. H. B.*

The English and American People

From the Atlantic

The population of England and Wales in 1871 was 27,212,500. That of the United States in 1870 was 38,556,000. The English and American people are thus separated by a difference of 11,343,500 persons engaged in governmental employ in England and Wales, and 7,343,500 in the United States. But the percentage of office-holders in the English is 1 to 1,000. The great majority of the English civil servants and administrators, however, hold their offices for life or during good behavior; while those in America are generally elected for a term of one or two years. Make it compulsory for Publishers to pre-pay postage day after day. All newspapers sent through the mail so that subscribers to the English press can receive their papers free of charge.

FREE OF POSTAGE. This new Postal Regulation is designed to work a complete revolution in the mode of paying for newspapers, and already in different parts of the Dominion Publishers announce that in future payments in advance will be generally be insisted upon. So far as the Newspaper business is concerned, this is, no doubt, the best and most equitable system, and it will eventually be adopted universally in Canada as it has been in other countries. Compelling Publishers to pre-pay the postage on their publications, in the law now in force, is the application of the same rule to Newspaper Subscribers.

With a view of bringing this system into effect as rapidly as possible, we have decided to make the following

LIBERAL OFFER. To Subscribers of the WEEKLY INTELLIGENCER. THURSDAY, SEPT. 30, 1875.

**"Come Down Handsomely."**

Having established, by the very strongest kind of circumstantial evidence, the manner in which Mr. Brown disposed of the corruption fund placed in his hands by Mr. Simpson and other friends who had "come down handsomely," we now come to another branch of the subject, namely the corrupt nature of the consideration which induced the Hon. John Simpson to "come down handsomely." It is a well known fact that Mr. Simpson, in his capacity as President of the Ontario Bank, was to be re-elected for the coming year, and that the bargain was made, and the money paid, on the 29th of September, 1875. The consideration which induced Mr. Simpson to "come down handsomely" was the promise of a large sum of money, which was to be paid to him in the form of a loan, and which was to be repaid to the Ontario Bank in the form of a loan.

**Terrific Accident.**

On Sunday evening last a frightful accident happened to Mr. Samuel Clark, an elderly farmer who resides about a mile from this village. Mr. Clark was engaged in the work of cutting down a large tree, and was using a large axe for the purpose. As he was about to strike the tree, the axe slipped from his hands, and fell upon his head, striking him on the forehead. The blow was so severe that it caused him to lose consciousness, and he fell back upon the ground. He was found by a neighbor, and was taken to his home, where he died a few hours later.

**The Fatal Railway Accident at Sord.**

The train that met with the accident which resulted in the death of many human beings, was returning to Sord after the day's work was finished. Several of the passengers were killed, and many were injured. The cause of the accident was the failure of the brakes, and the result was a collision with a large building. The train was carrying a large number of passengers, and the result was a terrible tragedy.

**THE TROUBLE WITH CHINA.**

The trouble with China is a subject which has been discussed for many years. The Chinese government has been accused of many crimes, and the result has been a series of wars and revolutions. The Chinese people are suffering from the result of these wars, and the Chinese government is responsible for the result.

**NORTHERN RAILWAY.**

The Council of Simcoe have agreed to accept twenty-five cents in the dollar for the stock held by them in the Northern Railway. It is questioned, however, whether this resolution can be made to "cover the stock" bought by the county. It is transferred to Burry and other municipalities.

**IMPORTS AND EXPORTS.**

In Saturday's issue the following value of imports and exports for the month ending July 1st, 1875, was given: Imports, \$1,000,000; exports, \$500,000. The total value of trade for the month was \$1,500,000.

testify to the corrupt bargain which was made by Messrs. Brown and Simpson when the latter "came down handsomely" in response to the promise of a large sum of money. A most interesting spectacle than is now presented by Mr. Brown openly disavowing Sir John Macdonald for asking the aid of his friends to meet money with which to carry out a political project. The fact that Mr. Brown is now openly disavowing Sir John Macdonald is a most interesting spectacle.
